

## **Reece acquires leading civil water supplier**

The Reece Group has acquired Viadux, Australia's leading supplier of civil water solutions, effective 1 October 2017.

"Viadux is a complementary business to Reece Civil, as the two organisations operate in different segments of the same market," said Reece CEO Peter Wilson.

Viadux will continue to operate as a separate business with its existing name, leadership and operations.

"Reece and Viadux are equally pleased about this move. It is a good fit that strengthens the position of both organisations."

The acquisition is not considered material under ASX reporting conditions.
